Discussion – Rosary pilgrimage 2026

Conference 2 – Fr Peter John Cameron

Mysteries are an event to be encountered – and our lives are changed each time we encounter these events – GOD changes US, we do not change ourselves

See ourselves in these events

We share Jesus's intimacy with the Father when the mysteries of our own life overwhelm us

Never ever quit

The rosary changes the unchangeable

You don't come away from the rosary the same person you were before you prayed it. AND this only needs your effort – continual concentration is NOT REQUIRED – you do the best you can. Acknowledging you failed in concentration is a double win because now you have humility

In every soul there is an abyss of mystery – and different from everyone else

Loving God according to our natural capacity is NOT ENOUGH – God intends us to go higher -this is a problem , right? We only have our natural capacity. Right? We must hope that God will give us the capacity to love Him.

Size of rosary beads – learn to make rosaries if you have nothing to do this winter

The woman said "keep it up, its working"
